

OMBUDSMAN “Can We Talk” Project

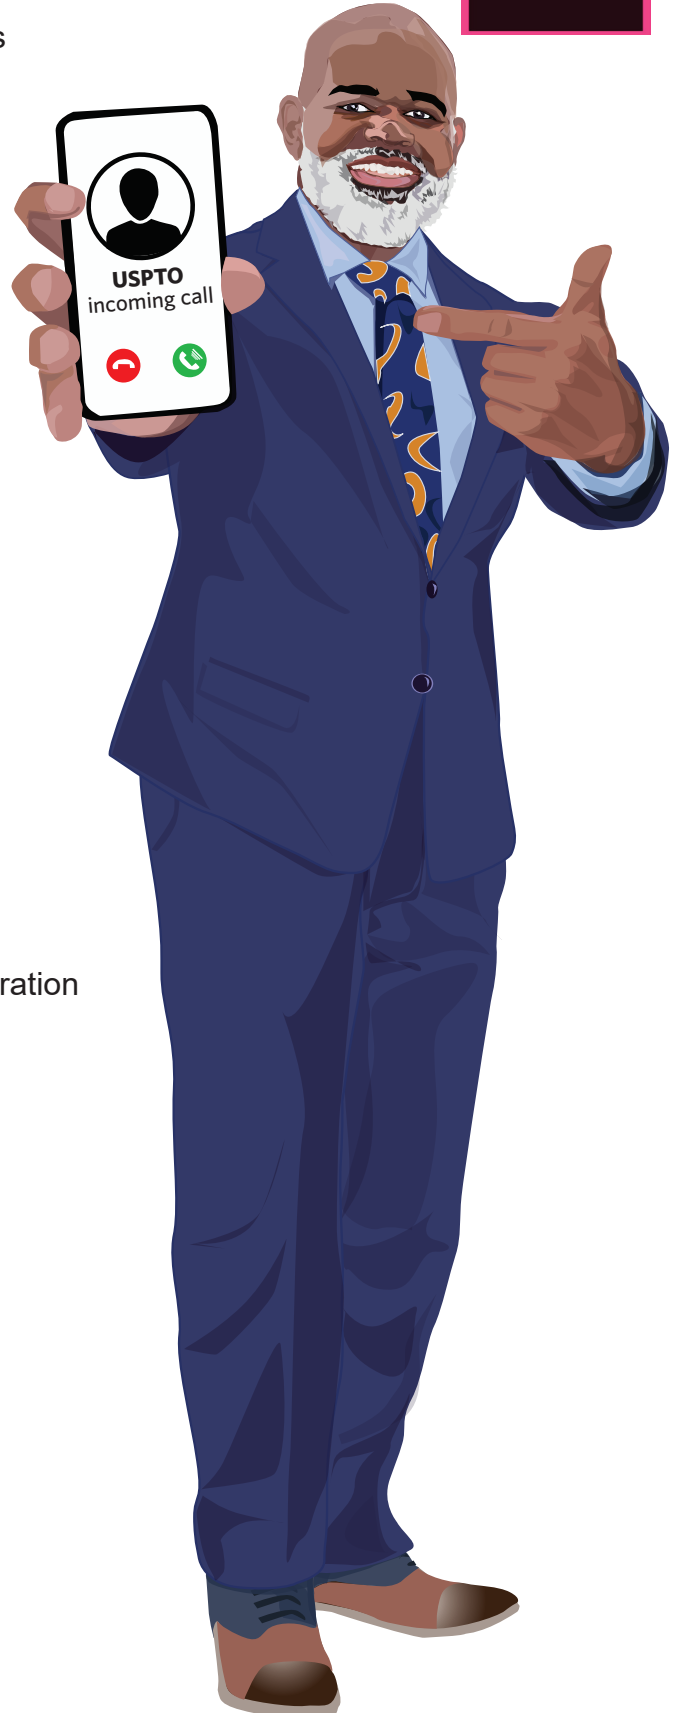

Each year, the USPTO hosts its annual Community Day event, celebrating innovation and collaboration. Our design team play a vital role in documenting the event through our photography services and other multimedia formats. The Ombudsman Team consistently challenges us by pushing the envelope by their outside-the-box requests, ranging from complex posters and brochures designs and illustration projects. The event at the Alexandria campus draws a crowd of roughly 10,000 people.
